A Report On
The Launching of The Global Marshall Plan Initiative in Delta State - Nigeria, date:
31st January 2007

Produce by liberty 4 Africa (L4A)

Activism view point:

L4A is an NGO, non-profit making organization highly ethical result oriented. Basically, Liberty 4 Africa activism focused on Health Issues, Child Protection, Youth Development and advocating for a sustainable development worldwide.

Liberty 4 Africa is pleased to present an update on the program to launch the Global Marshall Plan Initiative in Delta State.

January Update 2007:

Liberty 4 Africa in the pass years have been spear heading the Global Marshall Plan initiative in Nigeria, networking NGOs, CBOs, Governments, inter-governments, private and public sector and stakeholders on the need to endorse the Global Marshall Plan Initiative In Nigeria.

A press conference was organized; A Press Statement Delivered By Mr. Aghogho Careca Akarue CEO/Founder Liberty 4 Africa At A Media Conference Entitled "Launching Of the Global Marshall Plan Initiative In Nigeria - For A Worldwide Eco-Social Market Economy.

Held On: Saturday 5th February, 2005

At Nigerian Union of Journalist Warri - Delta State Nigeria.

We thank God for how far we have journey in this vision here in Nigeria, but there is still lots of work to be done.

In this year 2007, Liberty 4 Africa has planned to launch the Global Marshall Plan Initiative in Delta State, Nigeria - For a Worldwide Eco-Social Market Economy in Delta-State, Nigeria.

This event will coming up in May 2007; the second quarter of the year at the State capital of Delta State.

We have laid some strategic to achieve this goal:

1. A monthly television program at Delta State Broadcasting Service (DBS).
2. Networking of NGOs, CBOs, Governments, inter-governments, private and public sector and stakeholders to get involved in this event.
3. Support letters,
4. Members personal sacrifice
5. Distribution of bills, stickers and flyers

As regards this planning for this major event in May 2007 below is a report of our first official trip to Asaba concerning Launching of Global Marshall Plan initiative in Delta State Nigeria. By Mr. Careca Akarue. Date: 18/01/2007.

Interview at DBS Asaba, by Onyinye Fiona Okafor at the DBS studio; the interview was based on the introduction of Liberty 4 Africa and her aims and objectives and how it intends to impact the people of the state and also the nations of the earth where her vision covers.

Mr. Careca Akarue deliberated furthermore on the issue of liberating the mind of an individuals; people need to be liberated from the mental oppression the society has caused them and likewise their own flaws.

If the youths today can change the way they think, they will be able to bring out their hidden potentials. They will be able to leave the mentality of always wanting

the government to do something for them, which is good, but is time for the youth to see that they have something to give to the government and their environments.

That is why L4A is taking the challenge to reach out to many young people as much as possible, and we are doing this via the media, bills, seminars and also other resources on our website.

In the past we have organized events; such as HIV/Aids campaigns in secondary school, we preach for abstinence of sex until they are married.

Also in youth development, curbing of violence and youth restiveness; organizing peace rallies and also novelty football match to mark the celebration of Global Youth Service Day.

More events organized can viewed on our website www.liberty4africa.org

Furthermore, we are challenging the young people to wake up to the fact that they are the leaders of their own communities and they are lot of talents inside them that can impart the lives of people.

As for L4A, we recognize that some individuals are not skills but we welcome both skills and unskilled individuals into our organization and programs.

We believe that the unskilled person has the same potential as the skilled person, if they are encouraged and given good opportunities it will bring their hidden potentials.

So we integrate these categories together and we are persuaded that we are on course to impart the lives of the people and seeing that our state is moving to where it ought to be; peace and prosperity.

But we need support to keep the mission of Liberty 4 Africa moving and in the past we gotten support from some organizations, professional friends, and most of individuals members sacrifice.

Most companies in the past have mostly helped by logistics in our project and other international agencies with resource materials. But we need funds to achieve the upcoming projects.

But we are still keeping the faith and we are preparing for our next project: Launching of Global Marshall Plan Initiative in Delta State Nigeria, in the month of May 2007.

Every month we will be on DBS Television Youth Alive program, our next television program is schedule for 20/1/2007, deliberating on the importance of endorsing Global Marshall Plan Initiative in the State.

This project is already attracting interest from other NGOs and stakeholders, more information can be viewed on our website www.liberty4africa.org

Our next update will also include a list of endorsers of Global Marshall Plan initiative in Delta State Nigeria.

We need more flyers and brochure of Global Marshall Plan initiative to distribute to people in our state.

Our challenge at this stage is securing funds to run the daily activities of Global Marshall Plan initiative in Delta State Nigeria, all expenses has come from the organization individual member's sacrifice.

We use this avenue to thank our patrons and other professional friends and members for their contributions to make our January 2007 a successful month in our events.

We appreciate all your kind heart towards Liberty 4 Africa and the communities it wishes to serve.

L4A is pleased to identity with this initiative that will help bring hope to so many innocents' people and especially in Africa.

*What is the faith of Africa in the 21 century when war, AIDS, poverty and malnutrition continue to drive African dreams to an early grave? When will my people be liberated? My missions are that Africans gain liberty from poverty, health hazards and have a productive future. My vision is to unite Africans as one and bring peace to my mother land". - Mr. Careca Akarue **CEO/founder** Liberty 4 Africa*

Thanks you.
